M.B.A.

Kuala Lumpur, Malaysia
2010 – 2012

Shahid Beheshti University
B.Sc. in Applied Mathematics

Tehran, Iran
2002 – 2006

RESEARCH AND TEACHING INTERESTS

My research primarily focuses on the determinants and consequences of disclosures, as well as the role and dynamics of the auditing industry. I use machine learning models in my research to shed light on aspects of firms' disclosures that are not easily perceptible to humans.

I teach Accounting Information Systems and Data Analytics. In my course, I introduce students to emerging accounting technologies such as data visualization, robotic process automation, machine learning, and artificial intelligence to prepare them for the fast-changing global marketplace.

RESEARCH

Published Papers

Does distance matter? An investigation of partners who audit distant clients and the effects on audit quality. (with Jere Francis (Maastricht University) and Nicholas Hallman (University of Texas at Austin)) *Contemporary Accounting Research*. 2021.
